EMMA DAVIS

DRIVEN SOFTWARE DEVELOPER, PASSIONATE ABOUT LEARNING AND ASCENDING FROM JUNIOR LEVELS TO NEW HEIGHTS

PROFESSIONAL PROFILE

Combining the passion for IT with the empathy of a registered nurse. I aim to develop impactful healthcare systems. As a recent graduate in software development, I am eager to learn and bring fresh perspectives to the challenges in the social and healthcare sector. My one year of experience in software development is just the beginning of my journey toward becoming a healthcare technology innovator.

WORK EXPERIENCE

Health Tech Solutions Ltd.
Junior Software Developer
12/2022 - 11/2023

- Participation in software development projects in the social and healthcare sector, emphasizing accessibility and user-friendliness in teamwork
- Designing, coding, and maintaining software with a focus on accessibility standards and usability requirements
- Support in system testing, particularly emphasizing ensuring accessibility for diverse users
- Attendance in daily development team meetings and collaboration with other developers in designing accessibility-enhancing solutions
- Analysis of user feedback, with a special focus on accessibility experiences, and proposing improvements
- Troubleshooting and continuous self-development in new technologies and accessibility practices

Registered Nurse
OYS Oulu University Hospital
1/2015 - 11/2022

- Almost 8 years of experience as a registered nurse in a university hospital, working in the surgical outpatient clinic and intensive care unit
- Strong commitment and expertise in working in demanding conditions of intensive care
- Enthusiasm for the development of hospital information systems and a profound passion to transition into software development
- Decision to change the career path is driven by the desire to combine nursing expertise with the opportunities of software development to contribute to the advancement of healthcare
- Experience in teamwork and communication skills, strengthened in a diverse and demanding hospital environment
